

OFFICIAL MAPS

Official Maps are compiled by Licensed Surveyors and Civil Engineers from "record" data, which are then checked by the County Surveyor and are filed in the office of the County Recorder of the county in which the land is located, and are not intended to be considered as surveys.

Upon approval of authorized personnel of the Title Company, these maps may be referred to in a legal description as follows:

"Parcel _____ in the (City of Los Angeles), County of Los Angeles, State of California, as shown on a map filed in book _____ page _____, of Official Maps, in the office of the County Recorder of said County."
